

**INCIDENT MANAGEMENT SITUATION REPORT
MONDAY AUGUST 16, 2004 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 3**

CURRENT SITUATION:

Initial attack activity was moderate in the Northwest, Eastern Great Basin and Western Great Basin Areas and light elsewhere. Nationally, 276 new fires were reported. Three new large fires were reported, one each in the Southwest, Northern Rockies and Eastern Great Basin Areas. Three large fires were contained, one each in the Eastern Great Basin, Southern California and Southwest Areas. Very high to extreme fire indices were reported in Alaska, Arizona, California, Colorado, Idaho, Montana, Nevada, Oregon, Utah, Washington and Wyoming.

NORTHWEST AREA LARGE FIRES:

FISCHER, Okanogan-Wenatchee National Forest. A Type 1 Incident Management Team (Anderson) assigned. This fire is four miles southeast of Leavenworth, WA in grass, brush and timber. Fire activity included significant runs and occasional single and group tree torching. The communities of Williams, Jude, Upper Derby, Bjork and Eagle Canyon have an evacuation order in effect.

POT PEAK/SISI RIDGE COMPLEX, Okanogan-Wenatchee National Forest. A Washington State Interagency Incident Management Team (Furlong/Gormley) is assigned. This complex, comprised of the Pot Peak, SiSi Ridge and Deep Harbor fires is 15 miles northwest of Chelan, WA in timber. Torching, crown runs and short range spotting were reported on all fires. A voluntary evacuation notification has been issued for the Domke Lake, Lucerne and Holden Village areas.

BYBEE COMPLEX, Crater Lake National Park. A Type 2 Incident Management Team (West) is assigned. This fire is 16 miles northeast of Prospect, OR in timber. Active ground fire and isolated torching were observed.

GRASSY, Fremont National Forest. A Type 2 Incident Management Team (Paul) is assigned. This fire is 20 miles northeast of Lakeview, OR in timber, brush and cheatgrass. Erratic winds from thunderstorms resulted in active fire behavior.

MEBEE PASS, Okanogan-Wenatchee National Forest. A Washington State Interagency Management Team (Johnson) is assigned. This fire is 30 miles northwest of Winthrop, WA in timber. Minimal fire activity was observed.

FREEZEOUT, Okanogan-Wenatchee National Forest. A Fire Use Management Team (Cook) is assigned. This fire is 65 miles northeast of Bellingham, WA in timber. A joint U.S. Forest Service/British Columbia Forest Service helibase has been established in Manning Park, Canada to support air operations. Short runs, single tree torching and short range spotting were reported.

RATTLESNAKE PEAK, Okanogan-Wenatchee National Forest. A Fire Use Management Team (Weldon) is assigned. This lightning-caused Wildland Fire Use (WFU) incident, located 40 miles west of Yakima, WA in timber, is being managed to accomplish resource objectives. Low to moderate surface spread with single and group tree torching were reported.

JIM WHITE RIDGE, Wallowa-Whitman National Forest. This lightning-caused Wildland Fire Use (WFU) incident, located five miles east of Cove, OR in heavy dead and down timber, is being managed to accomplish resource objectives. No further information was received. This will be the last narrative report unless significant activity occurs.

HAZEL 2, Wallowa-Whitman National Forest. This lightning-caused Wildland Fire Use (WFU) incident, located 21 miles east of La Grande, OR in subalpine fir, timber and understory, is being managed to accomplish resource objectives. No new information was reported. This will be the last narrative report unless significant activity occurs.

ALASKA AREA LARGE FIRES:

CENTRAL COMPLEX, Bureau of Land Management, Upper Yukon Zone. A Type 1 Incident Management Team (Frye) is assigned. This complex, comprised of the Crazy, Bolgen Creek and Wolf Creek fires, is surrounding Central, AK in spruce and hardwoods. Higher temperatures combined with lower relative humidity levels and reduced cloud cover increased fire activity. Active surface fire with some crown runs was observed.

TAYLOR HIGHWAY COMPLEX, Alaska Division of Forestry, Tok Area Forestry. A Type 2 Incident Management Team (Jandt) is assigned. This complex, comprised of the Billy Creek, Gardiner Creek, Chicken and Porcupine fires, is 35 miles northwest of Tok, AK in black spruce and tundra. Fire activity decreased due to an inversion on the Porcupine and Gardiner Creek fires. Single tree torching was observed on the Chicken fire. The Chicken and Porcupine fires were active on both sides of the Taylor Highway.

BOUNDARY, Alaska Division of Forestry, Fairbanks Area Forestry. This fire is 20 miles northeast of Fairbanks, AK in black spruce and tundra. Moderate fire behavior was observed in the headwaters of the Little Chena River.

NORTHERN CALIFORNIA AREA LARGE FIRES:

BEAR, California Department of Forestry and Fire Protection (CDF), Shasta-Trinity Unit. A CDF Type 1 Incident Command Team (Chuchel) is assigned. This fire is ten miles northeast of Redding, CA in grass and brush. Fire behavior was minimal.

FRENCH, California Department of Forestry and Fire Protection (CDF), Shasta-Trinity Unit. A CDF Type 1 Incident Command Team (Lutts) is assigned. This fire is 15 miles northwest of Redding, CA in timber. Spotting, torching and running were reported. An evacuation order is in effect for French Gulch.

BELFAST, Bureau of Land Management, Northern California Resource Area. This fire is located six miles northeast of Susanville, CA in juniper, sagebrush and grass. Active interior burning was observed.

LAKE, California Department of Forestry and Fire Protection (CDF), Shasta-Trinity Unit. This fire is four miles north of Redding, CA in manzanita and pine. Minimal fire behavior was reported. No further information was received.

EASTERN GREAT BASIN AREA LARGE FIRES:

NORTH STAR BUTTE, Payette National Forest. A Type 2 Incident Management Team (Whalen) is assigned. This fire is 17 miles northwest of New Meadows, ID in subalpine fir. Torching and spotting were observed. Road and trail closures remain in effect. Crews made good progress constructing fireline on the eastern flank.

BEAR SPRING, Salmon-Challis National Forest. A Type 2 Incident Management Team (Broyles) is assigned. This fire is 11 miles northwest of North Fork, ID in timber. Significant runs and short duration crown runs were observed.

PORTER, Salmon-Challis National Forest. A Fire Use Management Team (Cones) is assigned. This lightning-caused Wildland Fire Use (WFU) incident, located 25 miles northwest of Stanley, ID in timber, is being managed to accomplish resource objectives. Minimal fire activity was reported.

PHANTOM, Payette National Forest. This lightning-caused Wildland Fire Use (WFU) incident, located four miles south of Lantz Bar, ID in timber, is being managed to accomplish resource objectives. Fire activity was moderate with occasional group tree torching.

STF = Stanislaus National Forest

NORTHERN ROCKIES AREA LARGE FIRES:

MAGPIE CAMP, Dakota Prairie National Grasslands. The fire is located 30 miles north of Medora, ND in timber with grass understory. Active fire behavior was observed.

PROMONTORY, Yellowstone National Park. This lightning-caused Wildland Fire Use (WFU) incident, located 38 miles northeast of Moran Junction, WY in pine, spruce and fir, is being managed to accomplish resource objectives. Fire continues to smolder in pockets of heavy fuel. This will be the last narrative report unless significant activity occurs.

NORTH BATTLE, Nez Perce National Forest. This lightning-caused Wildland Fire Use (WFU) incident, located 24 miles west of Hamilton, MT in timber, is being managed to accomplish resource objectives. No new information was reported. This will be the last narrative report unless significant activity occurs.

INDIAN CREEK, Bitterroot National Forest. This lightning-caused Wildland Fire Use (WFU) incident, located approximately 35 miles southwest of Hamilton, MT in dead and down timber, is being managed to accomplish resource objectives. An inversion moderated fire behavior. This will be the last narrative report unless significant activity occurs.

HALF LUNCH, Bitterroot National Forest. This lightning-caused Wildland Fire Use (WFU) incident, located 40 miles southwest of Hamilton, MT in dead and down timber, is being managed to accomplish resource objectives. Fire growth was minimal due to an inversion. This will be the last narrative report unless significant activity occurs.

OUTLOOK:

Weather Discussion: Thunderstorms will continue to develop over higher elevations across much of the West today. Some of the storms are expected to be dry from western sections of the Northern Rockies southward into western Colorado. The thunderstorms elsewhere are expected to contain wetting rains. In Alaska, high pressure will keep the Area in a warm, dry air mass.

| Geographic Area Weather | High Temperatures | Minimum Relative Humidity | Wind |
|--|--|--|---|
| EASTERN GREAT BASIN AREA Idaho, Bridger-Teton: Partly cloudy with widely scattered to scattered thunderstorms, mainly wet. Utah, Arizona Strip: Mostly cloudy with scattered to numerous thunderstorms. Heavy rain possible southwest Utah. | Idaho, Bridger-Teton: 69 to 85 mountains. 63 to 80 western Wyoming mountains. 83 to 97 valleys. Utah and Arizona Strip: 68 to 85 mountains. 80 to 95 lower elevations. 95 to 105 Lake Mead. | Idaho, Bridger-Teton: 18 to 35% mountains. 12 to 20% valleys. Utah, Arizona Strip: 25 to 40% mountains. 18 to 25% valleys and southeast Utah. | Idaho, Bridger-Teton: Northwest to west 5 to 10 mph. Utah, Arizona Strip: Southwest to south 10 to 15 mph. |
| NORTHERN CALIFORNIA AREA Mostly sunny, becoming partly cloudy east of the Cascade/Sierra crest with isolated afternoon and evening thunderstorms along the Nevada border. | 90s. | 12 to 28% driest areas. | Southwest to west 4 to 8 mph with higher afternoon gusts. |
| NORTHERN ROCKIES AREA Isolated to scattered mainly wet thunderstorms west of the Continental Divide, mainly southern portions. Fair to partly cloudy most areas east of the Continental Divide and east through North Dakota. | West of Continental Divide: 87 to 99 Idaho. 81 to 94 elsewhere. East of Continental Divide: 75 to 83 North Dakota. 67 to 77 mountains. 76 to 89 elsewhere. | West of Continental Divide: 16 to 30% Idaho. 17 to 32% elsewhere. East of Continental Divide: 25 to 40% North Dakota. 15 to 30% elsewhere. | West of Continental Divide: Valley 3 to 9 MPH except briefly gusty 25 to 35 mph under thunderstorms. East of Continental Divide: Mainly northeast to southeast to 10 mph. Northwest to north 5 to 15 mph in North Dakota. |
| NORTHWEST AREA Partly cloudy. Scattered, mostly wet, thunderstorms over and east of the Cascades. | West of Cascades: 80s to 90s. East of Cascades: 80s to 90s. 104 lower elevations of eastern Washington. | West of Cascades: 45% north. 25% south. East of the Cascades: 15 to 25%. | West of Cascades: West to northwest 5 to 15 mph. East of the Cascades: Variable 5 to 10 mph. |
| ROCKY MOUNTAIN AREA Scattered afternoon thunderstorms over Colorado and western Wyoming with isolated dry lightning over northwest Colorado and southwest Wyoming. | Mid 80s to lower 90s. 70s mountains. | Less than 20% across northwest Colorado into central and eastern Wyoming. | Variable 5 to 15 mph. |
| WESTERN GREAT BASIN AREA Partly to mostly cloudy with isolated to scattered wet thunderstorms. | 84 to 100 valleys. 74 to 86 mountains. | 15 to 25% west and south. 25 to 40% elsewhere. | Variable at 5 to 15 mph with localized gusts near storms to 35 mph. |

| | | | |
|---|--|--|-------------------------------------|
| <p>SOUTHERN CALIFORNIA AREA Areas of morning low clouds and fog coastal basins. Partly cloudy with a few thunderstorms over the Sierra eastward and the eastern deserts. Isolated thunderstorms over the mountains of Southern California east of Cajon pass.</p> | 65 to 80 coast. 80 to 95 mountains. 85 to 95 valleys. 90 to 100 upper deserts. 100 to 110 lower deserts. | 25 to 40% valleys. 15 to 30% mountains. 15 to 30% deserts. | Southwest to northwest 5 to 15 mph. |
|---|--|--|-------------------------------------|

http://www.nifc.gov/sixminutes/dsp_sixminutes.php

CONSTRUCTING LINE WITHOUT A SAFE ANCHOR POINT

When deciding where to build fireline, the following considerations must be weighed:

- Can you hold the line without the fire hooking under/around you? How do you protect against losing the line and ensure your safety if there is a danger of the fire hooking around you?
- Are there adequate safety zones and escape routes? Review what constitutes an adequate safety zone and escape route. Who has the responsibility to designate them and continue to make sure they are adequate?
- Can you develop your starting point into an anchor point? List some good anchor points. Describe how you would develop your starting point into an anchor point.
- Have you posted good lookouts? Where should the lookout(s) be posted? Who can be a lookout?
- Do you have good communications? Who do you need to be in contact with? If the communications are not good, what can you do to improve them?
- To reduce the risks, start the line in another location. Talk about fires where you have had to relocate the line because your anchor point did not hold the fire.
